HVAC Company in Egypt for International Companies, Foreign Investors and Expats

Air conditioning and ventilation for your factory, your office, your home and your staff housing in Egypt — designed, supplied, installed and maintained by one company, with proposals in English.

El Shora Cooling Solutions (شركة الشورى لحلول التبريد والتكييف والتهوية) is an Egyptian HVAC company founded in **2016** and based in **6th of October City, Giza**. It serves **foreign investors, international companies and expatriates in Egypt** with one supplier for three needs: the **factory or office** (VRF, chillers, DX units, ventilation), the **home** (villa or apartment air conditioning) and **staff accommodation** (split units supplied in quantity). It is an authorised agent for **Carrier, Midea and BVN**, issues **proposals in English**, provides tax invoices and vendor-registration documents, and hands over every project with a written commissioning report. Central systems are quoted after a **free heat-load study**.

One supplier for three needs

Your need	What we deliver
Factory, warehouse or industrial project	Production-hall ventilation, local exhaust at heat sources, spot cooling, precise air conditioning for quality and server rooms; VRF or ducted systems for the administration building.
Office, showroom, hotel, clinic or mall	Carrier VRF, chilled-water systems with fan coil units, DX packaged and ducted-split units, fresh air and smoke exhaust.
Your own home — villa or apartment	Wall-mounted, concealed ducted and cassette units, or a mini-VRF for a villa; copper piping installed before finishing.
Staff accommodation	Carrier and Midea split units supplied in quantity, with delivery, installation teams and tax invoices.
Keeping it all running	Annual preventive or comprehensive maintenance contracts for any brand, with a written readings report after every visit.

El Shora in numbers

Founded	2016, on 30+ years of experience
Completed jobs	13,000+
Service areas	27 areas; projects across Egypt
HQ, warehouse, workshop	6th of October City, Giza
Brands	Carrier · Midea · BVN

Selected projects: Sheraton, Hotel 390 (6th of October), District 5, HARBY Group Development, Al Zahraa, BH Pharmacies, Maritime Academy, Engineers Syndicate Club (New Cairo).

How a project runs — six stages

1. Site survey and heat-load calculation
2. Bill of quantities and specifications
3. First fix, photographed before closing
4. Tests with recorded values
5. Commissioning report
6. Warranty and maintenance

For procurement and finance teams

- Vendor registration documents ready: commercial register, tax card and VAT certificate.
- Tax invoices issued for companies.
- Payment by bank transfer, cheque or cash.
- Published payment policy, the same for every client: equipment 100% on contract; works 50% on contract, 30% at start of works and 20% at handover.
- Itemised bill of quantities: an item that is not written is not priced.
